Cartagena de Indias.

Cartagena, listed by the UNESCO as World Heritage and exalted because of its military architecture as one of the Colombian wonders. Cartagena is enchanted by fascinating and magical histories, where mystery is combined with the Warmth of the Caribbean.

Between modern and old, tangible and sublime, the city transforms itself into a storm of sensuality, trapping its visitors and transporting them to the magical realism of its history where wonder coexists with the mundane and everything is possible.

On the Caribbean shore, The City was a silent witness to the arrival of the Spanish conquerors in 1533. This perfect setting allows envisioning the times when the magnificent wall protected the city from pirates and plunderers; a wall that over the centuries has become the main background for one of the most romantic places on earth.

At night, Cartagena becomes a unique palette of colors, like few colonial cities around the world. The Streets and the Wall burst with unparalleled beauty and transports you several centuries into the past, while the Palenqueras, (Carriages), and ethnic dance groups spontaneously flood its squares at the rhythm of bullerengue and mapalé.

Consciously restored, Cartagena seduces its visitors to stroll through the Old City travelling through time while you absorb every moment of its majestic history.

Knowing Cartagena is a charming and Magical trip. A journey to the profound roots of history intertwined with beaches, sun and relaxation. Small streets, churches, convents, squares and palaces, all combined in perfect harmony with art galleries, gourmet restaurants and a bursting night life.
