SUNDAY
DAILY DESCRIPTIONS

**SANTA CRUZ
ISLAND**

GALAPAGOS
HABITAT | **1** |

(Departure)

DRAGON HILL | **3** |

One of the few visitor sites directly related to a conservation program led by the Charles Darwin Foundation and the Galapagos National Park. It was named after the land iguanas, considered the Galápagos' "dragons".

(2 hours aprox.)

CHINESE HAT | **2** |

This is a very small volcano close to Santiago Island, surrounded by small spatter cones. It's one of the smallest Galapagos Islands but don't be fooled: it has a unique visitor site with an unforgettable view!

What to see ?

Sea lions, wading birds, tropical fish, sea stars, penguins, land iguanas, flamingos and other shore birds.

What to do?

Trekking, snorkeling, swimming and leisure.

MONDAY
DAILY DESCRIPTIONS

NORTH SEYMOUR ISLAND

GALAPAGOS
HABITAT | **1** |
(Departure)

(2 hours navigation
aprox.)

NORTH SEYMOUR
ISLAND | **2** |

North Seymour Island is great for hiking. There is a circular path about 2 miles long that crosses the interior of the island which allows you to explore the rocky coastal path. On this trail, you will be able to discover some of the largest seabird colonies in the Galapagos Islands.

BACHAS
BEACH | **3** |

At this beach, you can choose to rest and/or swim in the wonderful Galapagos waters.

What to see ?

Blue-footed boobies, bright and colorful frigatebirds, sea turtles, Galapagos sharks, sea lions.

What to do?

Trekking, snorkeling,
swimming.
