

La Pinta

Western Itinerary

7-Days/6-Nights

Friday - Day 1 - BALTRA / NORTH SEYMOUR

(-/L/D)

Baltra Island

Our adventure begins with a morning flight to Baltra Island and immediate transfer to the dock to board Yacht La Pinta. There's an introductory welcome briefing, boat drill, cabin assignment followed by lunch.

North Seymour Island

Following an afternoon disembarkation, we enjoy a walk along the coast and the interior of this beautiful flat island, observing numerous bird colonies as well as sea lions and land iguanas. There are opportunities for coastal exploration by dinghy. Evening briefing, welcome cocktail and dinner.

Saturday - Day 2 - ISABELA / FERNANDINA

(B/L/D)

Punta Vicente Roca (Isabela Island)

Since there is no landing site at this location, the coastal exploration is by panga, while the naturalist guide explains the dramatic geology of the area, with remains of lava flows and tuff stone layers. There is abundant wildlife and, depending on the conditions of the ocean, we'll be able to snorkel along the cliffs, hopefully in the company of green sea turtles.

Punta Espinoza (Fernandina Island)

In the afternoon, we visit the youngest and most pristine island of the archipelago, Fernandina, one of many visitors' all-time favourites. Punta Espinoza has an amazing combination of barrenness and abundant wildlife. Highlights include hawks, penguins, flightless cormorants and astounding views of the surrounding volcanic landscapes.

(B/L/D)

La Pinta Western Itinerary 7-Days/6-Nights

Sunday - Day 3 - ISABELA Urbina Bay (Isabela Island)

After breakfast, we disembark at Urbina Bay, on the western side of Isabela Island, the result of an uplifting of the ocean floor. Here you can see corals, shells, and large and very colourful Galápagos land iguanas, as well as (occasionally) giant tortoises. Navigating the Bolívar Channel, there are good chances of spotting several species of whales.

Tagus Cove (Isabela Island)

On the northwest of Isabela, secluded Tagus Cove provided a favourite anchorage for pirates and whalers over the centuries, and today makes a great visitor site. An uphill hike takes us to the back of Darwin Crater, filled with salt water. We can snorkel or ride kayaks amid the dramatic landscape before going on our hike.

Monday - Day 4 - RABIDA / SANTA CRUZ Rábida Island

(B/L/D)

In the morning, we disembark at Rábida Island's red-coloured beach. A stroll along the beach allows us to observe marine iguanas, mockingbirds, yellow warblers and several species of Darwin's finches. This is a great place to snorkel from the beach. For non-snorkelers, we can ride our glass-bottom boat for an exploration of life underneath the waves.

Cerro Dragón (Dragon Hill) (Santa Cruz Island)

The north shore of Santa Cruz hosts the fascinating landscapes of Cerro Dragón (Dragon Hill). Our walk includes circling a brackish water lagoon frequented by lagoon birds, while further inland, the trail offers a beautiful view of the bay and the western islands of the archipelago, as well as the chance to observe land iguanas.

Tuesday - Day 5 - SANTA CRUZ

(B/L/D)

Puerto Ayora & Charles Darwin Research Station

The morning visit heads to the Charles Darwin Research Station and the giant tortoise pens within an impressive giant prickly-pear cactus forest. These are the Galápagos' headquarters of scientific investigation, conservation and the National Park administration. A delicious lunch is served at the poolside of the Finch Bay Eco Hotel.

Highlands of Santa Cruz Island

After lunch, we head up to the highlands of Santa Cruz Island by vehicle. This is a great place to look for the emblematic Darwin's Finches and the endemic Scalesia trees. The highlands are also great for exploring the exuberant vegetation where giant tortoises roam in the wild. This will surely be one of the most remembered visits of the whole voyage.

La Pinta Western Itinerary 7-Days/6-Nights

Post Office Bay

After breakfast, we land at Post Office Bay to visit the historic barrel that has served as a post office in the archipelago for over two centuries. Panga rides along the maze of channels on Floreana's north shore can also be enjoyed. Views from La Lobería and the Baroness Viewpoint are quite rewarding. There's great kayaking and swimming from the beach as well.

Champion Islet & Punta Cormorant (Floreana Island)

Before disembarking at Punta Cormorant we can snorkel or ride our glass-bottom boat along the coast of an extinct cone called "Champion Islet". Later in the afternoon, our visit to Punta Cormorant takes in an olivine-crystal beach for an easy walk by a brackish water lagoon where bird species like greater flamingos may be observed. On the other side of the island, we come to a white-sand beach where sea turtles come out at night to nest.

Thursday - Day 7 - BALTRA - Quito / Guayaquil

(B/-/-)

Our journey ends at Baltra Island, where we transfer to the airport to take the flight back to the mainland. Baltra's flat substrate (due to its uplifted origin) is the reason why the island was chosen back in the 1940s as the location to building an airport.
