— HOTEL & EXPERIENCES —

Estancia Cerro Guido

Surrounded by a privileged environment and with the eighth wonder of the world in the background, the 100,000 hectares of territory in which we are located invite us to immerse ourselves in Patagonia in a different way.

At Cerro Guido, the largest operating estancia in the region, we have different activities that will allow you to discover this corner of the world from different perspectives, ranging from horse-back riding in Sierra Baguales, trekking in Cerro Guido, fly fishing in mythical Patagonian rivers and 4x4 adventures that will take you to the border between Chile and Argentina. You will also have the chance to discover the simplicity of country life, as well as to participate and learn about a pioneer and unique conservation project in the region, which seeks the harmonious coexistence between livestock and the puma, king of this territory.

We invite you to discover the different alternatives we have available for all travellers who want to immerse themselves in the history of Patagonia, and live a unique cultural and adventurous experience.

Our activities

Conservation

Learn about the varied wildlife of the region and the work of the Cerro Guido Conservation Foundation to achieve a harmonious coexistence between livestock and wildlife.

Overland

We travel through the most incredible landscapes of Patagonia in our 4x4 vehicles.

Horseback riding

Horseback riding is a must for those who want to live an experience on horseback or riders who simply want to enjoy the unique environment of the estancia.

Trekking

For those who want to enter the steppe and mountains of Patagonia, this is definitely a worthwhile experience.

Cultural

Immerse yourself in the real estancia life by getting to know the traditions and daily labours of the ranch.

Archeology and Paleontology

Explore with us the prehistoric and cultural treasures of Patagonian Paleontology.

Fly fishing

With top quality equipment and guides, we go out to enjoy a full day of fishing in the unique scenery of Patagonia.

Difficulty Levels Trekking

● **Low Difficulty:** It is important to emphasise that, in Cerro Guido, all the hikes are on irregular terrain, often without trails or following trails marked by animals.

● **Medium Difficulty:** For regular walkers or occasional walkers in good physical condition.

● **High Difficulty:** These hikes, the most physically demanding, are intended for experienced hikers looking for a challenge. Trekking shoes and technical clothing are recommended. Walking poles are included.

Difficulty levels	Low ●	Medium ●	High ●
Distance	Less than 5 km	From: 5 to 8 km	From: 11 a 17 km
Duration	Less than 2 h. of walking	From: 2:00 to 3:30 h. of walking	From: 5 to 8 h. of walking
Type of terrain	Fairly even terrain, presence of trail in general	Terrain with irregularities, with off-trail sections.	Difficult terrain, no trail
Slope	Flat or very gentle slope (less than 70 m of positive difference in altitude)	Gradient - slope up to 400 m	Steep slope - positive difference in altitude between 600 and 1000 m. elevation gain

Difficulty horseback riding

● **Low Difficulty:** no previous experience required. Ideal for occasional riders or for a first experience on horseback riding.

● **Medium Difficulty:**

Full day: Requires previous horseback riding experience. It is advisable to have a good general physical condition due to the duration of the ride (5h.)

Half day: Requires horseback riding experience.

● **High Difficulty:**

Only for expert riders.

Difficulty levels	Low ●	Medium ●	High ●
Duration	Max. 3h.	From: 3:30 to 5 h.	6 h.
Type of terrain	Flat terrain with no difficulty	Can be technical (uphill and downhill and steep descents)	Can be technical (downhill and uphill, river crossings).
Pace	On the way	May include trotting and cantering	Long stretches with trot and canter
Experience	No experience required	Depending on circuit, may require experience	Steep slope positive Elevation gain between 600 and 1000 m.

Our recommendations to visit us are as follows:

- **Pants:** it is ideal to wear long trekking pants made of light, quick-drying fabric. Shorts are optional, they do not take up much space.
 - **Thermal layers:** T-shirts or long-sleeved shirts are required. Short sleeve shirts optional.
 - **Thermal layers:** fleece (can be of different thickness) and down jacket (thin).
 - **Windproof and waterproof jacket:** hopefully breathable, gore-tex for example. It is a must-have item for your walks. We do not recommend a plastic poncho: in the wind, it tears easily.
 - **Accessories:** thin gloves and hat, scarf or buff, as temperature changes can be abrupt, even in summer!
- them in your backpack when you go out for a walk.
 - **Refillable bottle (750 ml or 1 lt):** to hydrate during the day and avoid disposable water bottles.
 - **Comfortable walking shoes.** For hiking, high boots are recommended: the terrain can be quite rugged with dense vegetation, it is good to have a good sole and ankle support.
 - For horseback riding, a pair of sneakers or comfortable shoes not so wide they don't fit in the stirrups is sufficient.

Useful information:

How to dress? What to wear?

To fully enjoy your experience in Patagonia, we invite you to read our recommendations on what to wear.

In Patagonia, the weather is very changeable: it is not uncommon to experience all four seasons in a single day, or in just a few hours! Summer (December to March) is not very hot, with temperatures averaging 16 degrees Celsius. It can also be rainy and windy, with summer being the season of the strongest winds (over 80 km/h.).

Therefore, to enjoy your walks, it is key to have the right clothing. We recommend quick-drying, synthetic fabrics and avoid cotton and jeans: if they get wet, they keep the body cold and take a long time to dry.

Conservation Safari

This excursion is not included in the All Inclusive program.

With this activity, we invite you to participate for one day in the Cerro Guido Foundation Conservation project, you will discover the diverse characteristic fauna of Patagonia and also the strategies that Estancia Cerro Guido is developing to achieve respectful livestock farming that coexists with the native species.

We leave by vehicle from the Cerro Guido Hotel at dawn, to accompany a member of our trackers team on the ground in their daily routine, we begin with the puma research work on the ranch, participating in activities such as observation with binoculars and review of camera traps. The tour includes short walks without major difficulty. Towards the end of the morning, we will discover the work of the sheep protection dogs and how they help the coexistence between conservation and human activity.

After lunch and a break, we continue in the afternoon heading to the “Casa Puma”, the operations center of the Cerro Guido Conservation Foundation. There, we will watch an exciting video presentation, and then we will go out on one last field trip at sunset, where we will see the research work being carried out in the Sierra del Toro.

Overland

We travel through the most incredible landscapes of Patagonia in our 4x4 vehicles.

Sarmiento Lake Outpost - Gunther Plüschow

Through cattle fields we drive to Puesto Sarmiento, an iconic place located on the shores of the lake of the same name and bordering the Torres del Paine National Park. In the 1930's the German aviator Gunther Plüschow used Estancia Cerro Guido as a gateway for his explorations over the Patagonian mountain range and Lake Sarmiento as a base for his seaplane. During the visit to the outpost we will learn more about the life of this adventurer and we will also be able to hike and visit the lake.

Full Day Torres del Paine Northeast

This overland combines landscapes of Estancia Cerro Guido with the northeastern sector of Torres del Paine National Park. Our proximity to this protected area allows us to visit less explored areas, as well as some of the classic viewpoints of Torres del Paine.

This excursion is a mixture of driving and easy hikes that allow us to see part of Las Chinas Valley, famous for its paleontological findings, from where we will have visits to the Sierra Baguales and we will approach the Torres del Paine National Park through the Laguna Azul sector, where we will stop for lunch. During the afternoon we will drive through the northeast section of the park, an area known for the presence of wildlife and its views of the three granite Paine Towers, passing through Cañadón Macho and Paine Waterfall, an obligatory photographic stop, to begin our return to the hotel, from the Laguna Amarga sector.

Full Day Torres del Paine

Includes entrance to Torres del Paine National Park

This excursion will take us on roads that cover part of the 1814 km² of Torres del Paine National Park. From views of the Southern Ice Field to the pampa and its fauna, we will explore the diverse landscapes this biosphere reserve offers.

We leave the ranch towards Lago del Toro to approach Torres del Paine National Park from the south, where we will have a panoramic view of its mountains, forests, lakes and glaciers. We enter the park through the Serrano river entrance and continue to the Pingo river sector for a short hike to Grey Lake. Then we continue to Lake Pehoé to have lunch and visit the Salto Grande, one of the most scenic places in the park. In the afternoon, we will visit the eastern sector of the park, passing by the viewpoint of Lake Nördenskjold and Lake Sarmiento, to our last stop at Paine Waterfall and return to Cerro Guido from Laguna Amarga.

Horseback Riding

Live a unique experience exploring Patagonia through exciting horseback riding.

Macizo Paine Lookout

This ride is a must for beginner riders or those who simply want to enjoy the natural beauty that surrounds our ranch. We leave from our stable to the upper part of the ranch. This route takes us through a smooth level plain with the majestic Torres del Paine always in sight.

On the way out we border a forest of lengas and ñirres, native trees of Patagonia. On the way back, we cross meadows and open fields where it is common to see native fauna such as guanacos, rheas and foxes, as well as horses and sheep.

Caravana

Designed for the whole family, easy and very pleasant, this ride will allow us to appreciate the nature near the Estancia's main house. We will go through the fields surrounding our stable, where it is common to see animals of the Estancia, such as sheep and horses, as well as native fauna such as guanacos, all of this accompanied by open views of the vast Patagonian steppe.

Puesto Marcou

We head out towards the lower sector of the Estancia, crossing the Pampa and approaching the old cattle settlement, Puesto Marcou. With a view of Sierra Baguales in the distance, we continue up the slope of Sierra Contreras. For the return through the Estancia, we have Torres del Paine on the horizon. This ride covers different types of terrain where we can trot, gallop, and enjoy our surrounding environment.

Laguna Tegualda

(From January)

This ride take us through the immensity of the patagonian steppe. We leave towards the lower part of the estancia in the direction of the Tegualda Lagoon, a nice place for bird watching, it is common to see groups of flamingos, ducks, geese and rheas among others. Surrounded by Sierra del Cazador, Sierra Baguales and the Paine Massif, this ride through the pampa invites experienced riders to practice trotting and galloping.

Segunda Barranca

Varied in landscapes and all types of terrain, this ride begins by going up from our stable to the upper part of Sierra Contreras, from where we head to the Segunda Barranca sector, an old ranch that today is part of Cerro Guido. Continuing west, we will slowly enter a native Nothofagus forest. After lunch, we return through a sector of open pampa, joined by the presence of wildlife and the Torres del Paine as a backdrop.

Sarmiento Lake

Difficulty: Low

Located within the Torres del Paine National Park, Sarmiento lake is the largest in this nature reserve and is bordered to the east by Estancia Cerro Guido. This hike takes place near the base of Sierra del Toro, from where we descend slowly through the steppe until we reach the lake's southeast shore, where we will have a great panoramic view of the Paine Massif. There, we will be able to appreciate the thrombolites; calcium carbonate deposits that are typical of Sarmiento lake, and then return by a short and slightly steep climb.

Las Chinas Lookout

Difficulty: High

Off the beaten path, enthusiast adventurers will love this hike. We leave Cerro Guido hotel by car, a 40-minute drive to the Valle de Las Chinas, a wild and seldom explored place located in the northeast sector of the ranch.

Our walk takes us through open fields, following the Las Chinas River to the only forest in the valley, composed of lengas and ñirres, native trees of Patagonia. There,

we begin our ascent to the viewpoint, located on top of the hills.

The climb is challenging, off the trail and over uneven terrain. Still, our efforts are rewarded when we reach a stunning viewpoint, not only for its spectacular views of the Torres del Paine and surroundings but also for its mineral environment and peculiar rock formations that will transport us to other times.

Chenque Cerro Guido Lookout

Difficulty: High

An exciting challenge for our hikers, climbing the highest peak of the Sierra Contreras and the hill that gives our ranch its name. At 1270m high, you will discover an exceptional panorama and a valuable archaeological monument, the Chenque, great burial mound erected by the Aonikenk, an ancient native people of Patagonia, now extinct.

We leave the hotel on foot, climbing continuously through open fields until we reach the foot of the Sierra Contreras mountains. Here comes an arduous climb up the steep

slope of the hill, on rocky terrain and with no path, to a first plateau, where a great view of Sierra Baguales rewards our efforts. To reach the summit of Cerro Guido, where the famous Chenque is located, we continue our ascent across another large inclined plateau a more progressive and smoother climb. A spectacular, 360 degree view awaits us, sweeping across the surrounding valleys, mountains, lakes and glaciers, with Torres del Paine in sight.

Base of the Towers Lookout

Difficulty: High

Includes entrance to Torres del Paine National Park

This is one of Patagonia's classic hikes and the main attraction of the national park. Every year backpackers from all over the world put themselves to the test in this intense challenge. For those who want to spend a day in the mountains of Torres del Paine, this experience will definitely be worth it.

We leave early from the hotel to head to Torres del Paine National Park, where we will begin our hike approaching the Macizo Paine and facing the first big climb of 2 km.

That will take us inside the Ascencio Valley. We continue through the valley, passing by the Chilean Camp and gradually climbing through a forest until we reach the foot of the glacier moraine that rises to the viewpoint of the towers. Probably the most challenging, the last hour of steep climbing and rocky terrain leads us to contemplate one of the most iconic landscapes of Patagonia.

French Valley

Catamaran ticket included

Difficulty: High

Includes the entrance fee to Torres del Paine National Park

The diversity of landscapes; forests, lakes, mountain ranges and hanging glaciers, make this full day trekking the ideal excursion for nature and adventure lovers.

We start departing from the hotel by vehicle early in the morning, which takes us to Pudeto dock, where we board a catamaran that crosses the glacial waters of the famous Lake Pehoé, to the Paine Grande mountain hut, at the foot of the mountain of the same name, where we begin our hike. Passing through a variety

of landscapes and with a gentle slope we arrive at the Italiano Camp. From there, with a steeper slope, we continue walking into the valley, through a dense forest of lenga and coihue trees overlooking an impressive hanging glacier, until we reach the French viewpoint.

A place surrounded by granite walls where you can enjoy one of the most incredible views of the park.

Sierra Baguales

One of the most iconic landscapes of the estancia, the mystical Sierra Baguales is the natural boundary between Chile and Argentina, as well as the site of recent paleontological and archeological discoveries. The solitary and wild nature of this little explored mountain range is a must for adventure enthusiasts. For this excursion we head towards Puesto Las Flores, where we start a steep ascent, off trail, that will take us through hills

covered with coiron to base of the Sierra Baguales. A series of small lakes, striking peaks and herds of guanacos are part of the breathtaking scenery that accompanies us as we approach Cerro Ciudadela. We descend through wide valleys, where you can still see herds of baguales; wild horses that inspired the name of this remote mountain range.

E-bikes Puesto Rojo

Embark on an unforgettable adventure with our electric bicycle excursions, as we journey towards the enchanting post of Valle de Las Chinas. From this picturesque starting point, we'll pedal through the vast expanse of the steppe, a land teeming with life and offering glimpses of its diverse fauna in their natural habitat. Our route leads us deeper into the wilderness, where we'll traverse gentle slopes and winding paths, eventually arriving at the verdant embrace of a forested hillside. It is here that we'll discover the hidden gem known as the Puesto Rojo, or the Red Post, a tranquil sanctuary nestled amidst the lush greenery, offering a moment of respite and reflection amidst nature's splendor. Join us as we embark on this captivating journey through the heart of the countryside, where every pedal stroke unveils a new story waiting to be told.

Cultural

Immerse yourself in true estancia life by getting to know the traditions and daily chores of the countryside.

Estancia Cultural Tour

Our guided tour is an invitation to discover an authentic patagonian ranch, where not only the original buildings with valuable testimonies of the region's architectural heritage have been preserved, but also the traditional lifestyle that defines the very essence of Patagonia. This tour through the center of the ranch, founded more than 100 years ago, is a true journey through time.

We start with the presentation of the map of the province and a historical introduction to the cattle activity in Patagonia. After that, we walk through different areas of the ranch, such as the orchard and the greenhouse, where we can try some of their products to finally visit the manor house and the shearing shed if the season allows it.

Paleontology Valle las Chinas

Difficulty: Low

The Las Chinas River Valley and its impressive fossil record has been studied for more than 20 years by different teams of paleontologists. Their discoveries have made it the most important paleontological site in Chile and key to understanding the end of the dinosaur era.

The excursion takes us to the interior of the Las Chinas Valley, the heart of the paleontological findings, a remote and difficult to access place, but with unique nature and landscapes. This sector and its sedimentary rock formations are an uninterrupted record of the last 20 million years of the dinosaur era and the first 3 million years of the mammal era, which represents an open book to understanding what our planet was like 80 million years ago. In this adventure we will follow in the footsteps of paleontologists and explore in our all-terrain vehicles one of the least visited places of Estancia Cerro Guido.

Full Day Fishing

Not included in all inclusive program

Sparsely populated and with water sources that descend directly from glaciers and mountains, Patagonia and its crystal-clear rivers are one of the most pristine places in the world to fish. The area around Torres del Paine, where Cerro Guido is located, stands out as an attractive destination for anglers worldwide.

Our specialized fishing guides are continuously evaluating day by day the best sport fishing spots in the rivers and streams that run through the ranch, among them the Las Chinas and Baguales rivers, renowned for their fishing in the region. There you can find both brown and rainbow trout, as well as Atlantic and Chinook salmon, in addition to some native species. Then, with top-quality equipment and guides, we enjoy a full day of fishing in Patagonia's unique scenery.
